Editor
David J. Weiss,
University of Minnesota

Editorial Board

David Andrich,
Murdoch University, Australia

Frank B. Baker,
University of Wisconsin

Peter Bentler
University of California, Los Angeles

Robert L. Brennan,
University of Iowa

David V. Budescu,
University of Illinois, Urbana-Champaign

John B. Carroll,
University of North Carolina

Jacob Cohen,
New York University

Mark L. Davison
University of Minnesota

René V. Dawis,
University of Minnesota

Fritz Drasgow,
University of Illinois, Urbana-Champaign

Susan Embretson,
University of Kansas

Gerhard H. Fischer,
University of Vienna, Austria

Eric F. Gardner,
Syracuse University

Lewis R. Goldberg
University of Oregon

Bert F. Green,
Johns Hopkins University

Ronald K. Hambleton,
University of Massachusetts

Willem J. Heiser,
University of Leiden, The Netherlands

Wayne H. Holtzman,
University of Texas at Austin

Lloyd G. Humphreys,
University of Illinois, Urbana-Champaign

Douglas N. Jackson,
University of Western Ontario, Canada

Lawrence E. Jones,
University of Illinois, Urbana-Champaign

Robert L. Linn,
University of Colorado

Richard M. Luecht,
National Board of Medical Examiners
Computer Software Review Editor

Robert MacCallum,
Ohio State University

Roger E. Millsap,
Baruch College
City University of New York
Book Review Editor

John E. Overall,
University of Texas

Joseph Lee Rodgers,
University of Oklahoma

Fumiko Samejima,
University of Tennessee

Takahiro Sato,
NEC Corporation, Japan

Lyle Schoenfeldt,
Appalaichian State University,
Computer Program Exchange Editor

Sukeyori Shiba,
University of Tokyo, Japan

Yoshio Takane,
McGill University, Canada

Ross E. Traub,
Ontario Institute for Studies in Education, Canada

Wim J. van der Linden
University of Twente, The Netherlands

Howard Wainer,
Educational Testing Service

Rand R. Wilcox
University of Southern California

Technical Editor
Jane L. Schleisman

Volume 20

Table of Contents

Articles

An Assessment of Stout's Index of Essential Unidimensionality
John Hattie, Krzysztof Krakowski, H. Jane Rogers, and Hariharan Swaminathan 1

An Investigation of the Likelihood Ratio Test For Detection of Differential Item Functioning
Allan S. Cohen, Seock-Ho Kim, and James A. Wollack 15

A Quadratic Curve Equating Method to Equate the First Three Moments in Equipercentile Equating
Tianyou Wang and Michael J. Kolen 27

An Investigation of the Sampling Distributions of Equating Coefficients
Frank B. Baker 45

Are Simple Gain Scores Obsolete?
Richard H. Williams and Donald W. Zimmerman 59

Detecting Faking on a Personality Instrument Using Appropriateness Measurement
Michael J. Zickar and Fritz Drasgow 71

A Study of a Network-Flow Algorithm and a Noncorrecting Algorithm for Test Assembly
R. D. Armstrong, D. H. Jones, Xuan Li, and Ing-Long Wu 89

Monte Carlo Studies in Item Response Theory
Michael Harwell, Clement A. Stone, Tse-Chi Hsu, and Levent Kirisci 101

An Empirical Link of Content and Construct Evidence
Craig W. Deville 127

The Influence of the Presence of Deviant Item Score Patterns on the Power of a Person-Fit Statistic
Rob R. Meijer 141

Multidimensional Rasch Models for Partial-Credit Scoring
Henk Kelderman 155

Computing Elementary Symmetric Functions and Their Derivatives: A Didactic
Frank B. Baker and Michael R. Harwell 169

A New Publisher for *APM*
David J. Weiss 197

Item Response Theory Models and Spurious Interaction Effects in Factorial ANOVA Designs
Susan E. Embretson 201

A Global Information Approach to Computerized Adaptive Testing
Hua-Hua Chang and Zhiliang Ying 213

A Unidimensional Item Response Model for Unfolding Responses From a Graded Disagree-Agree Response Scale
James S. Roberts and James E. Laughlin 231

Identification of Items That Show Nonuniform DIF
Pankaja Narayanan and H. Swaminathan 257

Longitudinal Models of Reliability and Validity: A Latent Curve Approach
John Tisak and Marie S. Tisak 275

Is Reliability Obsolete? A Commentary on "Are Simple Gain Scores Obsolete?"
Linda M. Collins 289

Linear Dependence of Gain Scores on Their Components Imposes Constraints on Their Use and Interpretation: Comment on "Are Simple Gain Scores Obsolete?"
Lloyd G. Humphreys 293

Commentary on the Commentaries of Collins and Humphreys
Richard H. Williams and Donald W. Zimmerman 295

SPECIAL ISSUE
Multidimensional Item Response Theory

Developments in Multidimensional Item Response Theory
Terry Ackerman, Guest Editor 309

Graphical Representation of Multidimensional Item Response Theory Analyses
Terry Ackerman 311

Conditional Covariance-Based Nonparametric Multidimensionality Assessment
William Stout, Brian Habing, Jeff Douglas, Hae Rim Kim, Louis Roussos, and Jinming Zhang 331

A Multidimensionality-Based DIF Analysis Paradigm
Louis Roussos and William Stout 355

Assembling Tests for the Measurement of Multiple Traits
Wim J. van der Linden 373

Multidimensional Computerized Adaptive Testing in a Certification or Licensure Context
Richard M. Luecht 389

Linking Multidimensional Item Calibrations
Tim Davey, T. C. Oshima, and Kevin Lee 405

The following two articles will appear in the March 1997 Issue:

The Multidimensional Random Coefficients Multinomial Logit Model
Raymond J. Adams, Mark Wilson, and Wen-chung Wang

The Past and Future of Multidimensional Item Response Theory
Mark D. Reckase

Book Reviews

Test Equating: Methods and Practices by Michael J. Kolen and Robert L. Brennan
Reviewed by Neil J. Dorans 193

The Analysis of Change by J. M. Gottman (Ed.)
Reviewed by Linda M. Collins 299

Software Review

XCALIBRE™ Marginal Maximum-Likelihood Estimation Program, Windows™ Version 1.10
Reviewed by Mark J. Gierl and Terry Ackerman 303

Computer Program Exchange

A SAS Macro for Producing SAS *t* Test Output When Raw Data are Not Available
Kevin P. Weinfurt 99

A SAS Macro for Calculating Positive Predictive Values Across a Range of Base Rates
Kevin P. Weinfurt 100

PRS: Polytomous Response Simulator—Polytomous Item Generation According to the Common Factor Model
Jaime Robles 140

TET: Calculation of The Tetrachoric Correlation Coefficient and Its Standard Error
Ting Hsiang Lin 196

IPLINK: Multidimensional and Unidimensional Item Parameter Linking in Item Response Theory
Kevin Lee and T. C. Oshima 230

For the Record...

A comment on *"Polychotomous or Polytomous?"* by David J. Weiss
Martin Cooper 58
